

Maurice Thomas

Atlanta, Georgia • 678.387.9772 • mauricet1520@gmail.com • github.com/mauricet1520

After enjoying problem-solving in all my previous jobs, I realized that this is what I want my career to be.
I love learning different skills and finding creative solutions to the world's problems with tech.

SKILLS

Java, JavaFX, Android, Threads, Sockets, JDBC, Hibernate, Spring, JUnit, Test Driven Development, Agile Development, Javascript, AngularJS, CSS, IntelliJ (including debugger), Git

RELEVANT EXPERIENCE

The Iron Yard | Atlanta, GA

Nov 2016 – Feb 2016

Back-end Engineering Student

The Iron Yard is a 12-week coding bootcamp specializing in highly focused, immersive training centered on language fluency, object-oriented programming, and project-based learning.

- **What's The Wait** – An application that allows a restaurant to display their current wait time to users
 - A restaurant guest can add themselves to a restaurant's wait-list and view projected wait times, other guests ahead of them, and how long they've been waiting, all in real time by using a relational database. Restaurant employees can edit and delete their wait list, as well.
 - Code: github.com/mauricet1520/WhatsTheWait
- **Bank System** – A command line application that allows users to enter information about their bank accounts and then perform transactions on those accounts
 - This product uses background threads to calculate interest on savings and retirement accounts, writes data to file, stores account information, and showcases principles of inheritance and polymorphism in working with different types of bank accounts.
 - Code: github.com/mauricet1520/bankAccount

Freelance | Atlanta, GA

2016

Personal Project

- Notes By Reece – Android note taking app
 - A simple note taking app that allows users to save information to local storage on their Android device using a SQLite database
 - Code: play.google.com/store/apps/details?id=com.reece.notesbyreece.demo

Pappadeaux Seafood Kitchen | Norcross, GA
